WHO IS WARREN

Since its founding in 2012, Warren Windows, located in Beijing, China, has been determined to bring guardians for many homeowners by providing quality aluminum windows and doors in standard sizes and customized sizes. Warren windows takes technique and workmanship and quality seriously. Instead of applying traditional manpower in our factories, we have introduced a few German Elumatec Automatic Processing machines to make our manufacturing more precise and effective.

COMPANY PROFILE

In the past ten years, Warren windows keep pushing itself to pursue more delicate products for every customer by observing the newest technique and designs while always remaining professional service. You can see many stores selling Warren products in many cities across China and we have also done many excellent projects for customers from other countries. Our products have received many favors from over 350, 000 families. But we are not yet satisfied with that progress. We were working on, are working on, and will continue working on improved quality and better budget for our customers.

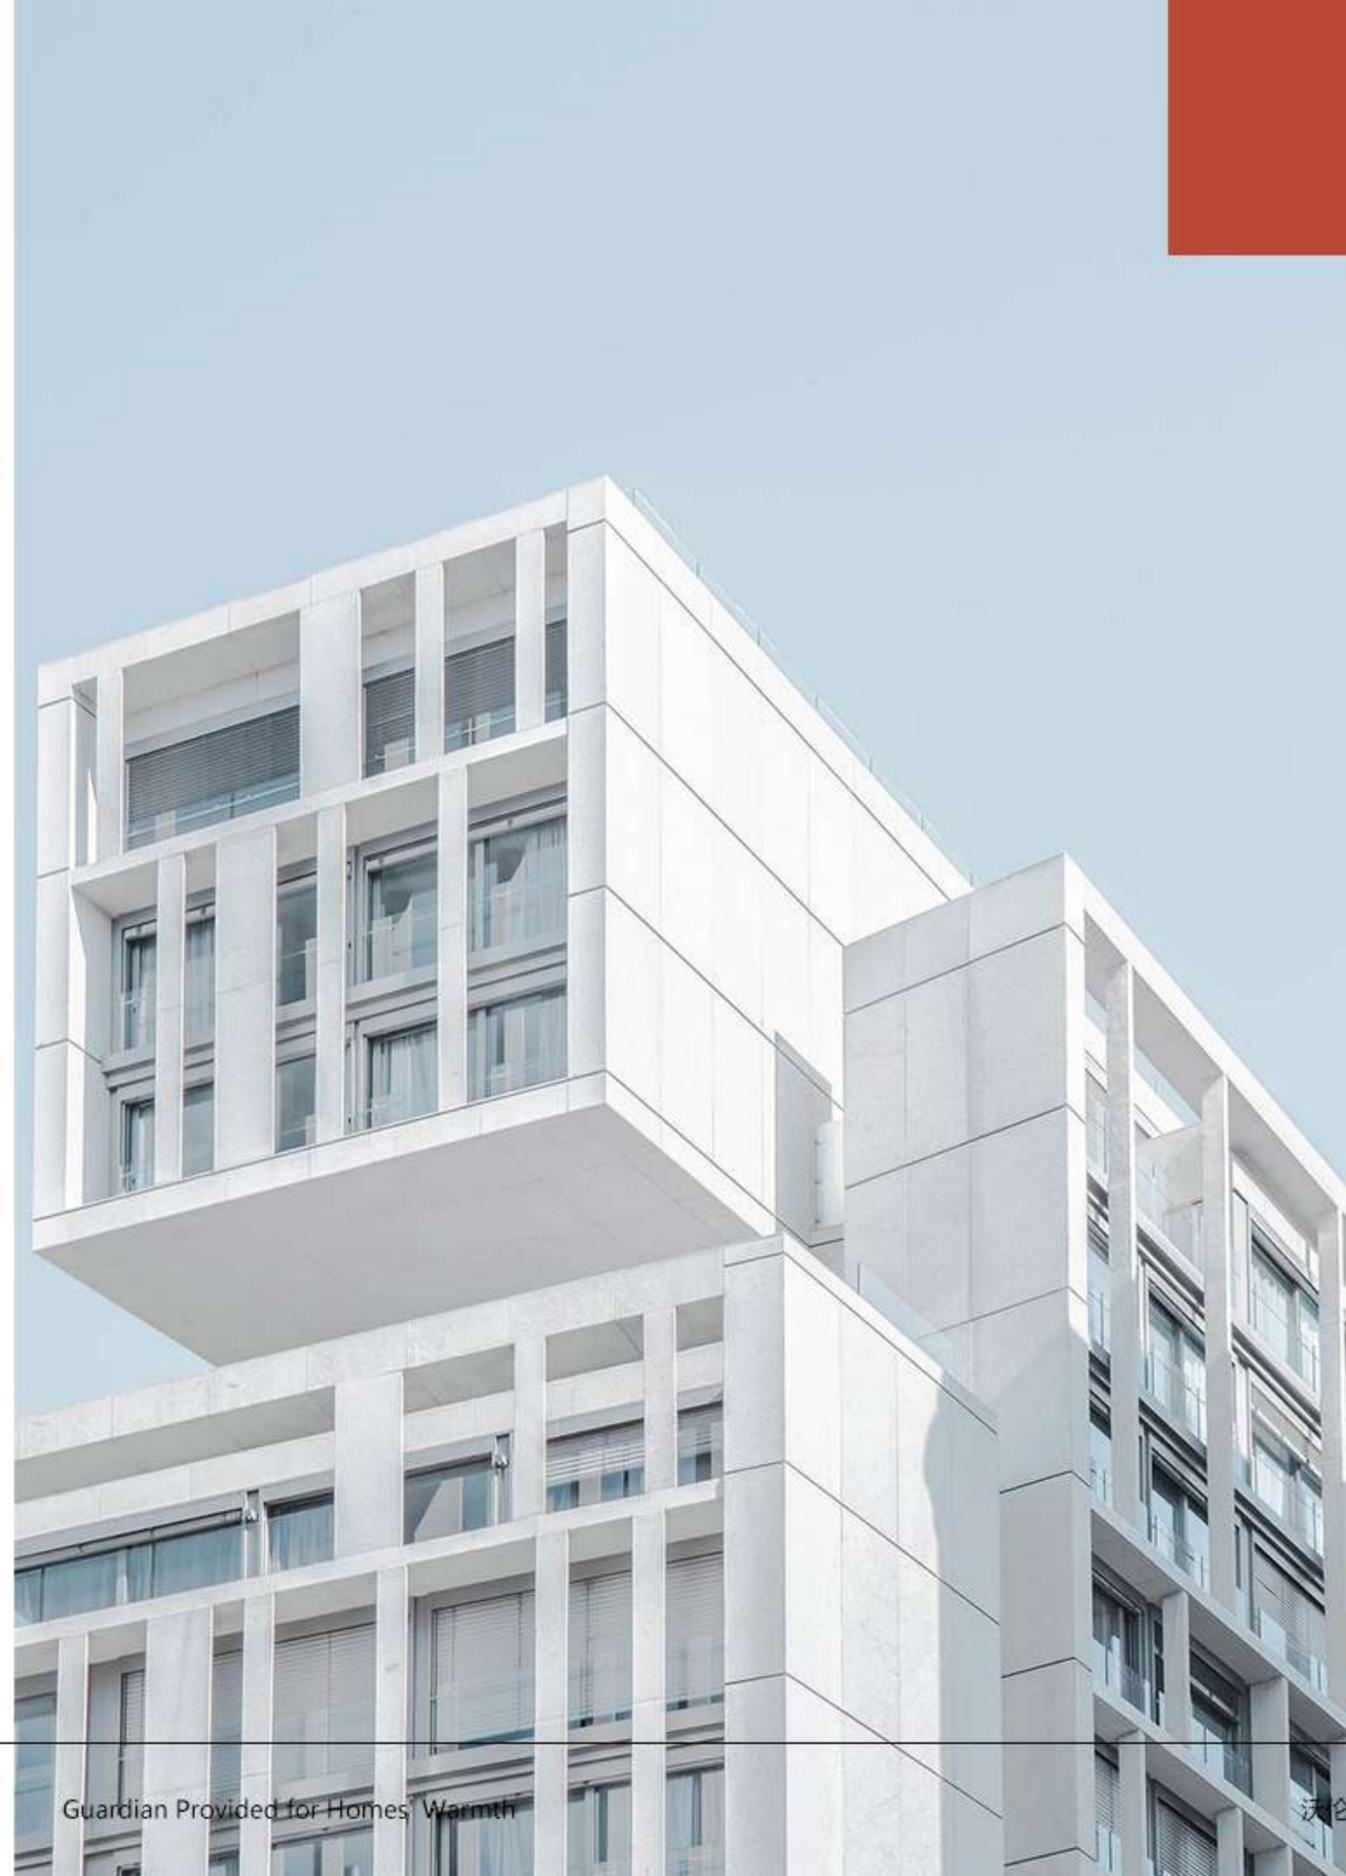

elumatec

Why You Can Trust Warren?

The Warren Difference

- 1** **Exceptional Craftsmanship**
WARREN is committed to offering a more attractive design solution to our customers with exceptional craftsmanship. Our products equipped with superior performance and exquisite design. All in all, WARREN has never stopped on the way of exploration and innovation.
- 2** **Top Configuration**
WARREN are caution about selecting high-end materials for its products. We well select the best raw materials and bring in advanced equipment and exquisite workmanship by cooperating with outstanding brand from all over the world.
- 3** **Lifetime Limited Warranty**
WARREN is committed to top quality, excellent performance and high standard. That why we can keep all of our windows and doors with a limited lifetime warranty.

PROVIDE EXPECTED SECURITY FOR HOME

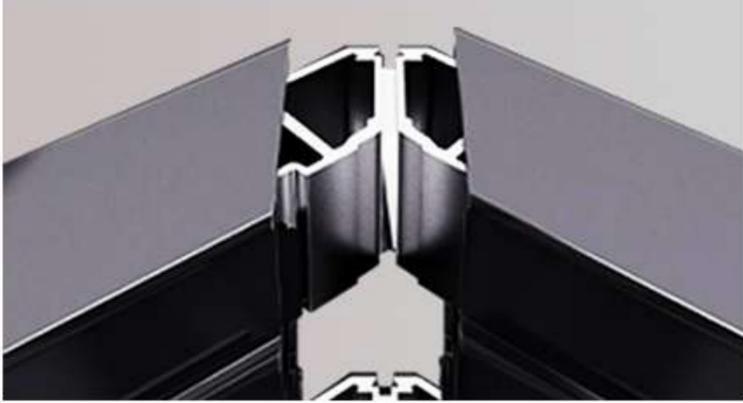

1. Exceptional Craftsmanship

Perfect Mitre Cut

3.Lifetime Limited Warranty

Your home deserves the best, and so do you. That's why we offer a lifetime limited warranty with our windows - because we believe in providing only the highest quality products and service. Trust us to deliver windows that not only look great and function excellently, but that are also backed by a lifetime warranty for your peace of mind. Your satisfaction is our top priority, and our lifetime warranty is just one way we demonstrate that commitment

Why Choose Energy-saving Aluminum Doors and Windows?

1.Highest Quality

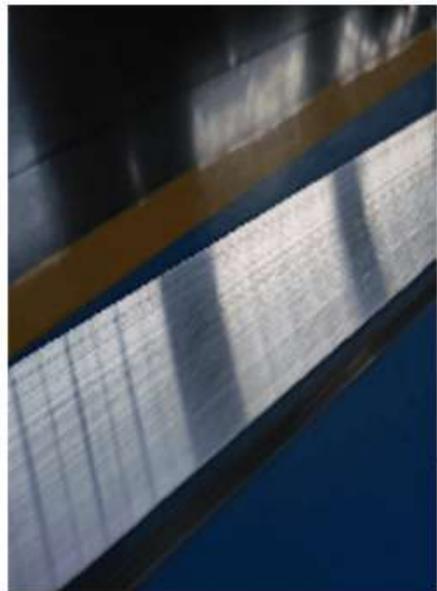

Adopt 6060-T66 ultra-high precision grade aluminum alloy, high strength, and no deformation, extending the life of windows and doors

Material	6060-T66	6063-T5
Tensile Strength(σ_b)	$\geq 215\text{Mpa}$	$\geq 160\text{Mpa}$
Yield Strength($\sigma_{0.2}$)	$\geq 160\text{Mpa}$	$\geq 110\text{Mpa}$

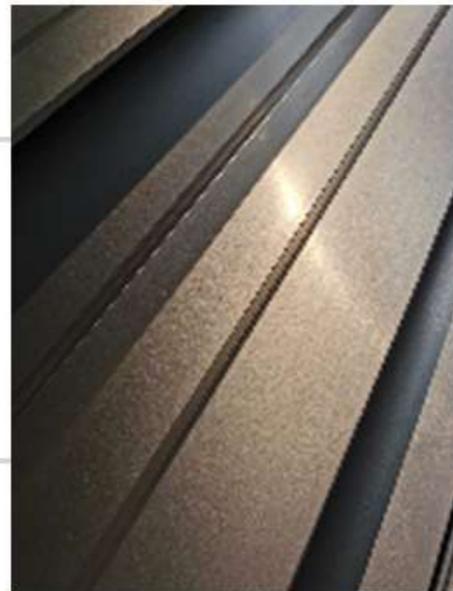

← increase 34.4% (between Tensile Strength values)
 ← increase 45.5% (between Yield Strength values)

Netherlands AkzoNobel Powder-Large international brands, reliable quality. 20 years no discoloration, no lumping, no paint loss

VS

Profile surface treatment - sandblasting process, making the profile surface more flat and clean, increasing the adhesion of electrostatic spraying powder, making the surface more corrosion resistant and environmentally friendly

Why Choose Energy-saving Aluminum Doors and Windows?

2.High Energy Efficiency

Insulation Performance---Thermal Break

#High Quality Warren Brand# & #German Technoform Brand#

The material is Glass Fiber Reinforced PA66 GF25 , which fits perfectly with the physical expansion properties of aluminum. Optimal width(24/34mm), thus improving the insulation factor of the aluminum.

Sealing Performance---Central Gasket

#German Excellent Brand Semperit#

- Top Grade EPDM Rubber, delivering excellent tear, abrasion and steam resistance
- One-piece Bending (no breaks in the corner), improving Airtightness performance
- Co-extruded gaskets with foam rubber area for top insulation performance

#China Jiangyin Haida#

- Advanced EPDM Rubber, delivering excellent tear, abrasion and steam resistance
 - Hot Melt Welding (4 Joints Each), Original JYHD EPDM Integrated
- >fastness
>Acoustic Performance
>Heat Insulation Performance

Aluminum Remains Constant Temperature

Why Choose Energy-saving Aluminum Doors and Windows?

3.The Aesthetic

- Aluminum windows can have a sleek and modern aesthetic that is popular in many contemporary architectural designs. The material's inherent strength and durability allow for thinner frames, which can create a more minimalist look and provide a larger glass area for increased natural light.

The aluminum frames can be finished in a variety of colors, including metallic and matte finishes,

- which can add to their aesthetic appeal. Additionally, they can be custom-designed to fit specific architectural styles.

Checking our catalogue to see the different design, just like Flush Design, Slim Frame Design,

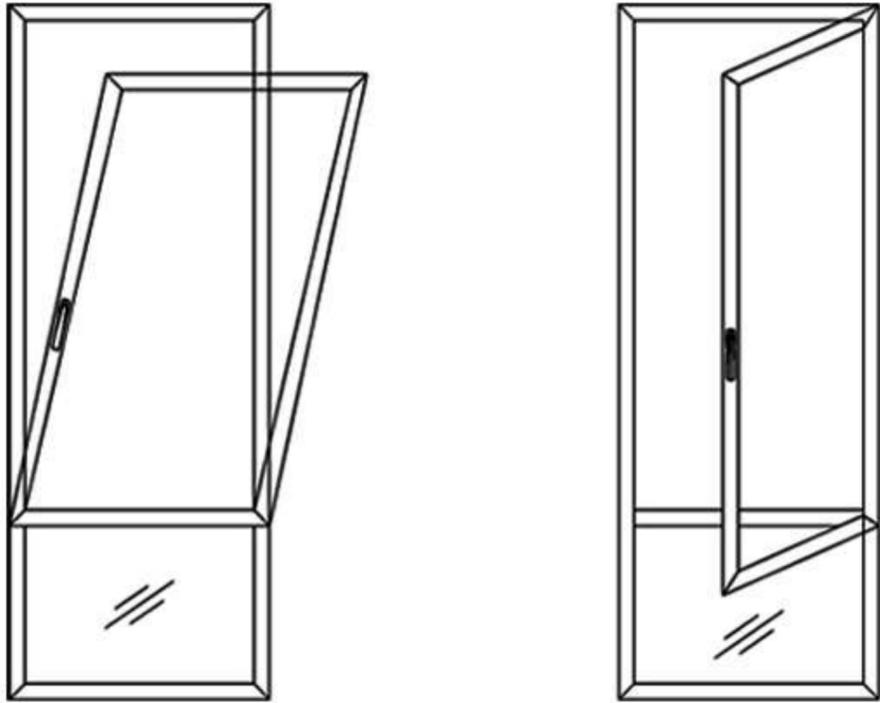

- Large View Solution, you can choose from when building your home. All in all, they will be able to align well with your vision.

What is the best Energy-saving of opening way? ——— **Tilt and Turn**

1. What is Tilt and Turn?

Tilt and Turn Windows can open inward just like inswing window and tilt on the top to allow flexible ventilation. Tilt and Turn Windows promise better quality and superior Energy-efficiency and exceptional durability with unique design and functionality.

2. Why Tilt and Turn?

- 1. Flexibility:** The ability to open the window in two different ways provides flexibility in controlling the airflow and access to the outside.
- 2. Improved ventilation:** The tilt position allows for easy ventilation, which can help improve indoor air quality and reduce the need for artificial cooling.
- 3. Easy cleaning:** The tilt position allows for easy cleaning of the exterior of the window from inside the room.
- 4. Improved security:** The turn position allows for the window to be closed tightly and securely, providing added security for your home.
- 5. Space-saving:** Tilt and turn windows are designed to take up less space when opened, making them ideal for small or tight spaces.
- 6. Contemporary design:** The sleek and modern design of tilt and turn windows adds a contemporary touch to any home.

Overall, tilt and turn windows offer a range of benefits including improved ventilation, easy cleaning, improved security, space-saving design, and a contemporary look.

SOLUTION

WINDOW SYSTEM

A home also can be a place where your heart lives and coming home is coming to your heart.

Well-designed amazing windows and doors are all Warren want to bring to every customer.

Cold Climate Solution

Cold climate solutions are designed to provide superior thermal insulation, which can help reduce energy costs by keeping the heat inside during the winter months. This can result in lower heating bills and a more comfortable indoor environment.

Engineer Series

- Glass:** Fully Tempered
Triple Glazing (5+12A+5+12A+5)
Energy Efficient Low-E Coating
- Profile:** High Strength 6060-T66
- Normal Thickness of Supportive Profile:** 1.4~1.8mm
- Thermal Break:** PA66 GF25 34mm
- Gasket:** China Brand JIANGYIN HAIDA
- Energy Performance Ratings:**
- U-Factor(U.S./I-P) ---0.23-0.38
 - Solar Heat Gain Coefficient ---0.17-0.38
 - Visible Transmittance ---0.29-0.49
 - Air Leakage(U.S.1/I-P) ---≤0.3
 - Condensation Resistance ---40-60
- Price:** ☆ ☆
- Hardware:** German Excellent Brand ROTO
- Handle:** German Excellent Brand HOPPE
- Open Type:** Tilt and Turn/Inswing/Hopper
- Key Point:** Economy, Durability, Energy Efficient
- ***Optional cavity perfusion and insulation cotton double upgrade the heat insulation performance

Master Series

- Glass:** Fully Tempered
Triple Glazing (5+12A+5+12A+5)
Energy Efficient Low-E Coating
- Profile:** High Strength 6060-T66
- Normal Thickness of Supportive Profile:** 1.8~2.2mm
- Thermal Break:** PA66 GF25 34mm
- Gasket:** German Brand SEMPERIT
- Energy Performance Ratings:**
- U-Factor(U.S./I-P) ---0.23-0.38
 - Solar Heat Gain Coefficient ---0.17-0.38
 - Visible Transmittance ---0.29-0.49
 - Air Leakage(U.S.1/I-P) ---≤0.3
 - Condensation Resistance ---40-60
- Price:** ☆ ☆ ☆
- Hardware:** German Top Brand ROTO
- Plug-in Handle:** German Luxury Brand FSB
- Upgrade Option:** German Luxury Brand SOBINCO Hardware and Handle
- Open Type:** Tilt and Turn/Inswing/Hopper
- Key Point:** Classic, Economy, Durability, Energy Efficient
- ***Optional cavity perfusion and insulation cotton double upgrade the heat insulation performance

Slim Series

- Glass:** Fully Tempered
Triple Glazing(5+18A+5)
Energy Efficient Low-E Coating
- Profile:** High Strength 6060-T66
- Normal Thickness of Supportive Profile:** 1.8~5.3mm
- Thermal Break:** PA66 GF25, Frame 24mm, Sash 35.5mm
- Gasket:** China Brand JIANGYIN HAIDA
- Energy Performance Ratings:**
 - U-Factor(U.S./I-P) ---0.23-0.38
 - Solar Heat Gain Coefficient ---0.17-0.38
 - Visible Transmittance ---0.29-0.49
 - Air Leakage(U.S.1/I-P) ---≤0.3
 - Condensation Resistance ---40-60
- Price:** ☆ ☆ ☆ ☆
- Hardware:** German Excellent Brand ROTO
- Handle:** German Luxury Brand FSB
- Upgrade Option:** German Luxury Brand SOBINCO Hardware and Handle
- Open Type:** Tilt and Turn/Inswing/Hopper
- Key Point:** Flush, Narrow Frame, Aesthetically Pleasing Design, Energy Efficient

***Optional cavity perfusion and insulation cotton double upgrade the heat insulation performance

Energy Ultimate Series

- Glass:** Fully Tempered
Triple Glazing(5+12A+5+12A+5)
Energy Efficient Low-E Coating
- Profile:** High Strength 6060-T66
- Normal Thickness of Supportive Profile:** 1.8~2.2mm
- Thermal Break:** PA66 GF25 44mm
- Gasket:** German Brand SEMPERIT
- Energy Performance Ratings:**
 - U-Factor(U.S./I-P) ---0.23-0.38
 - Solar Heat Gain Coefficient ---0.17-0.38
 - Visible Transmittance ---0.29-0.49
 - Air Leakage(U.S.1/I-P) ---≤0.3
 - Condensation Resistance ---40-60
- Price:** ☆ ☆ ☆ ☆
- Hardware & Plug-in Handle:** German Luxury Brand SOBINCO
- Upgrade Option:** German Luxury Brand SOBINCO Hardware and FSB Handle
- Open Type:** Tilt and Turn/Inswing/Hopper
- Key Point:** Key Excellent Thermal Insulation, Energy Efficient, Anti-Mosquito

***Optional cavity perfusion and insulation cotton double upgrade the heat insulation performance

 - Visible Transmittance ---0.29-0.49
 - Air Leakage(U.S.1/I-P) ---≤0.3
 - Condensation Resistance ---40-60
 - Price:** ☆ ☆ ☆ ☆
 - Hardware and Handle:** German Luxury Brand SOBINCO
 - Open Type:** Horizontal Push Out
 - Key Point:** Ultra Unobstructed Version. Can be installed with a safety guardrail.
- ***Optional cavity perfusion and insulation cotton double upgrade the heat insulation performance

Coastal Solution

Experience the ultimate in coastal living with Coastal Window Solutions. Our windows are specially designed to withstand the harsh elements of coastal environments, providing superior protection against water, wind, and salt damage. Our top-quality materials and expert craftsmanship ensure that our windows will last for years, even in the toughest conditions

Master Series

- Glass:** Fully Tempered
 Double Glazing (5+18A+5)
 Triple Glazing (5+0.76PVB+5+18A+5)
 Energy Efficient Low-E Coating Glass
- Profile:** High Strength 6060-T66
Normal Thickness of Supportive Profile: 1.8~2.2mm
Thermal Break: PA66 GF25 34mm
Gasket: German Brand SEMPERIT
- Energy Performance Ratings:**
- U-Factor(U.S./I-P) ---0.23-0.38
 - Solar Heat Gain Coefficient ---0.17-0.38
 - Visible Transmittance ---0.29-0.49
 - Air Leakage(U.S.1/I-P) ---≤0.3
 - Condensation Resistance ---40-60
- Price:** ☆ ☆ ☆
- Upgrade Hardware and Handle:** German Luxury Brand SOBINCO
Open Type: Tilt and Turn/Inswing/Hopper
Key Point: Classic, Economy, Durability, Energy Efficient, Corrosion Resistance, Hurricane Resistance

***Optional cavity perfusion and insulation cotton double upgrade the heat insulation performance

Architect Series

- Glass:** Fully Tempered
 Double Glazing (5+18A+5)
 Triple Glazing (5+0.76PVB+5+18A+5)
 Energy Efficient Low-E Coating Glass
- Profile:** High Strength 6060-T66
Normal Thickness of Supportive Profile: 1.8~2.2mm
Thermal Break: PA66 GF25 24mm
Gasket: German Brand SEMPERIT
- Energy Performance Ratings:**
- U-Factor(U.S./I-P) ---0.23-0.38
 - Solar Heat Gain Coefficient ---0.17-0.38
 - Visible Transmittance ---0.29-0.49
 - Air Leakage(U.S.1/I-P) ---≤0.3
 - Condensation Resistance ---40-60
- Price:** ☆ ☆ ☆
- Upgrade Hardware and Handle:** German Luxury Brand SOBINCO
Open Type: Tilt and Turn/Inswing/Hopper
Key Point: Flush, Aesthetically Pleasing Design, Energy Efficient, Corrosion Resistance, Hurricane Resistance

***Optional cavity perfusion and insulation cotton double

Energy Ulmate Series

- Glass:** Fully Tempered
 Double Glazing (5+18A+5)
 Triple Glazing (5+0.76PVB+5+18A+5)
 Energy Efficient Low-E Coating Glass
- Profile:** High Strength 6060-T66
Normal Thickness of Supportive Profile: 1.8~2.2mm
Thermal Break: PA66 GF25 44mm
Gasket: German Brand SEMPERIT
- Energy Performance Ratings:**
- U-Factor(U.S./I-P) ---0.23-0.38
 - Solar Heat Gain Coefficient ---0.17-0.38
 - Visible Transmittance ---0.29-0.49
 - Air Leakage(U.S.1/I-P) ---≤0.3
 - Condensation Resistance ---40-60
- Price:** ☆☆☆☆
- Upgrade Hardware and Handle:** German Luxury Brand SOBINCO
Open Type: Tilt and Turn/Inswing/Hopper
Key Point: Classic, Economy, Durability, Energy Efficient,Corrosion Resistance,Hurricane Resistance

***Optional cavity perfusion and insulation cotton double upgrade the heat insulation performance

Energy Series

- Glass:** Fully Tempered
 Double Glazing (5+18A+5)
 Triple Glazing (5+0.76PVB+5+18A+5)
 Energy Efficient Low-E Coating Glass
- Profile:** High Strength 6060-T66
Normal Thickness of Supportive Profile: 1.8~2.2mm
Thermal Break: PA66 GF25 34mm
Gasket: German Brand SEMPERIT
- Energy Performance Ratings:**
- U-Factor(U.S./I-P) ---0.23-0.38
 - Solar Heat Gain Coefficient ---0.17-0.38
 - Visible Transmittance ---0.29-0.49
 - Air Leakage(U.S.1/I-P) ---≤0.3

Push Out Series

- Glass:** Fully Tempered
 Double Glazing (5+18A+5)
 Triple Glazing (5+0.76PVB+5+18A+5)
 Energy Efficient Low-E Coating Glass
- Profile:** High Strength 6060-T66
Normal Thickness of Supportive Profile: 1.8~2.2mm
Thermal Break: PA66 GF25 34mm
Gasket: German Brand SEMPERIT
Energy Performance Ratings:
- U-Factor(U.S./I-P) ---0.23-0.38
 - Solar Heat Gain Coefficient ---0.17-0.38
 - Visible Transmittance ---0.29-0.49
 - Air Leakage(U.S.1/I-P) ---≤0.3
 - Condensation Resistance ---40-60
- Price:** ☆ ☆ ☆
- Upgrade Hardware and Handle:** German Luxury Brand SOBINCO
Open Type: Out-Swing/Awning/ Out-Swing & Awning
Key Point: Classic, Economy, Durability, Energy Efficient, Corrosion Resistance, Hurricane Resistance
- ***Optional cavity perfusion and insulation cotton double upgrade the heat insulation performance

Passive Series

- Glass:** Fully Tempered
 Double Glazing (5+18A+5)
 Triple Glazing (5+0.76PVB+5+18A+5)
 Energy Efficient Low-E Coating Glass
- Profile:** High Strength 6060-T66
Normal Thickness of Supportive Profile: 1.8~2.2mm
Thermal Break: PA66 GF25 44mm
Gasket: German Brand SEMPERIT
Energy Performance Ratings:
- U-Factor(U.S./I-P) ---0.23-0.38
 - Solar Heat Gain Coefficient ---0.17-0.38
 - Visible Transmittance ---0.29-0.49
 - Air Leakage(U.S.1/I-P) ---≤0.3
 - Condensation Resistance ---40-60
- Price:** ☆ ☆ ☆ ☆ ☆
- Upgrade Hardware and Handle:** German Luxury Brand SOBINCO
Upgrade Option: German Luxury Brand SOBINCO Hardware and FSB Handle
Open Type: Out-Swing/Awning/ Out-Swing & Awning
Key Point: Excellent Thermal Insulation, Energy Efficient, Corrosion Resistance, Hurricane Resistance
- ***Optional cavity perfusion and insulation cotton double

DOOR SYSTEMS

Every opening,
Is a change to meet your heart and nature. Design your space with our high-end custom-built service. Warren represents you with an incomparable lifestyle througharts in windows

Energy Efficient Solution

Enjoy convenient bustling life while remaining close to nature. Manufactured with exquisite workmanship and meticulous spirit. Open your Warren doors to enjoy a lively life and close them whenever you feel like quietness.

Hinged Door

- Glass:** Fully Tempered
 Double Glazing(5+18 A+5)
 Energy Efficient Low-E Coating
- Profile:** High Strength 6060-T66
- Normal Thickness of Supportive Profile:** 2.2mm
- Thermal Break:** PA66 GF25 Frame 34mm Sash 30&34mm
- Gasket:** German Brand SEMPERIT
- Energy Performance Ratings:**
- U-Factor(U.S./I-P) ---0.28-0.43
 - Solar Heat Gain Coefficient ---0.15-0.4
 - Visible Transmittance ---0.29-0.49
 - Air Leakage(U.S.1/I-P) ---≤0.3
 - Condensation Resistance ---42-60
- Price:** ☆ ☆ ☆
- Hardware:** German Excellent Brand ROTO + Dr. Hahn Hinges
- Handle:** German Excellent Brand HOPPE
- Upgrade Option:** German Luxury Brand SOBINCO Hardware and Handle
- Open Type:** Inswing/Out-Swing
- Key Point:** Classic, Anti-Theft Function, Security, Energy Efficient,Durability

***Optional cavity perfusion and insulation cotton double upgrade the heat insulation performance

French Door

- Glass:** Fully Tempered
 Double Glazing(5+18 A+5)
 Energy Efficient Low-E Coating

American System Bi-Fold Door

Glass: Fully Tempered
Double Glazing (5+19A+5)
Energy Efficient Low-E Coating

Profile: High Strength 6063-T5

Normal Thickness of Supportive Profile: 2mm

Thermal Break: PA66 GF25 Frame 20mm Sash 24mm

Gasket: China Brand JIANGYIN HAIDA

Energy Performance Ratings:

- U-Factor(U.S./I-P) ---0.28-0.43
- Solar Heat Gain Coefficient ---0.15-0.4
- Visible Transmittance ---0.29-0.49
- Air Leakage(U.S.1/I-P) ---≤0.3
- Condensation Resistance ---42-60

Price: ☆ ☆ ☆

Hardware and Handle: CMECH

Lift and Sliding Hardware: German Luxury Brand SOBINCO

Open Type: Bi-fold

Key Point: Excellent Sealing, Durability, Energy Efficient, Smooth Operation

***Optional cavity perfusion and insulation cotton double upgrade the heat insulation performance

SUNROOM SERIES

Start a good day with Warren sunrooms.

Devoted to continuous investment in innovative research, maintaining leading techniques, Warren sunrooms keep bringing wonderful life experience in different styles and shapes manufactured with exquisite technique.

We mean to excel your expectation by removing your worry with our specially designed watertightness and drainage system.

·Performance Advantages: Warren system sunrooms are applied with thermally-broken aluminum profile and installed with PA66 GF25 multi-cavity sealing strips for the top, providing excellent thermal insulation performance.

·Design Advantages: We precisely calculate the materials and accessories needed for system sunrooms to avoid unnecessary jointing or cutting problem caused by defective designs. We offer flexible designs on the shapes of the top; representing artistic and concise appearances.

·Installation Advantages: Warren system sunrooms are installed with classic Chinese Classic assembly methods that enjoy high stability.

·Drainage Advantages: Warren system sunrooms are equipped with complete drainage systems for the first draining, and the sections of the profiles are designed with drainage structures to allow for the second draining, making sure to flow the rainwater sucked in the sealing strips and interior condensate water to the exterior. There are also dedicated drainage grooves and downspouts on the exterior to provide good water tightness for the sunrooms.

·Supporting Facilities Advantages: Manufactured with European standard grooves and can be perfectly matched system windows and doors, improving the practical use of the sunrooms.

·Smart System Advantages: The windows of Warren sunrooms can be controlled with smart WiFi systems, inviting you to enjoy smart and caring life.
